Introduction

Nepal Development Research Institute (NDRI) was established in 2004 by an interdisciplinary team of experts, with highest academic degrees and with wide range of experiences. NDRI aims to address the current and emerging policy challenges and offer practical and credible recommendations for the benefit of the policy makers and the general public. Since its establishment, NDRI has continuously worked to create opportunities for research, dialogue and collaboration and to strengthen the communication and partnership between the policymakers, academia and the pool of experts.

Mission

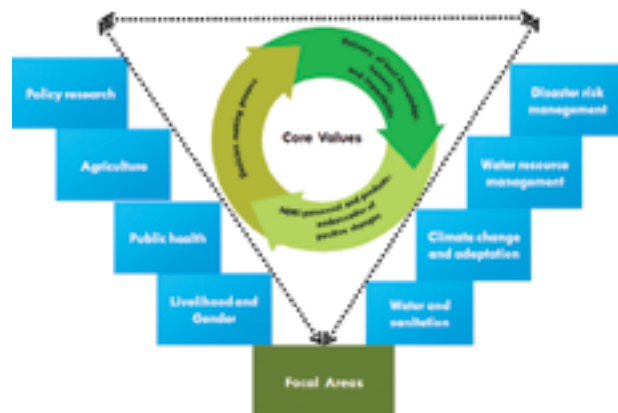

Provide evidence-based analytical inputs for policy making in regional, national and local level on contemporary issues through rigorous research

Vision

To become a center of excellence for policy research, education and development

Objectives

- Carry out research and academic activities on contemporary issues related to economic development and advancement
- Contribute to rational opinion building by disseminating information
- Exchange resources, technology and information with both national and international institutions
- Contribute to capacity building of young professionals and local communities
- Provide professional services to the clients as per their demands

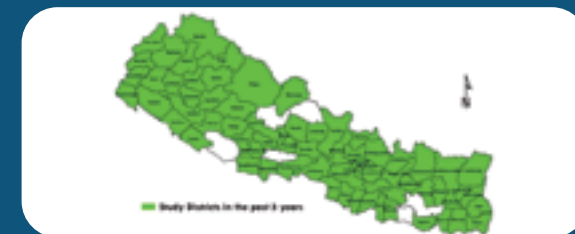

Ongoing Projects

- To Design and Conduct Formative research to Guide UNICEF's Comprehensive Communication for Development (C4D) – UNICEF
